PLEASE CLICK ON DESIRED ITEM FOR A COMPLETE DESCRIPTION

Celtic Stationery the brain child of Colleen McEwan commenced production in the 1990's with the view to keep alive the Celtic heritage of many, whose roots go back to the Celts.

Accordingly, Colleen and husband Ian started to manufacture Celtic stationery products.

The first commercial product was what is now the white Clan pad. An effective and powerful design, this product shows the clan crest in maroon on a white linen paper.

Celtic Stationery then began to market their products to a number of Scottish shops around N.S.W. and Australia.
